President's Report

Welcome to the first issue of Sterilization in Australia for 2016.

I hope everyone has had a great new year & happy Easter.

I would like to thank my committee on the great work they have achieved over this year thus far. As you all know there will not be a state conference this year but we will be organising workshops throughout the year.

The feedback from the Ballina workshop organised and ran by Ruth has been extremely positive and that the talks were informative and educational.

The opening of the new OTEN training facility was officially opened on the 29th of April. It's a Purpose built health and student services facility showcasing the latest in education technology, the centre offers students practical experience in Sterilising, Dentistry, Optical dispensing, Nursing and Audiometry.

The AGM will be held at 6pm on the 15th of June at the new OTEN Kingswood TAFE Campus, the topic is "What are we in the business of? Creating Certainty Creating Value" and will be presented by Manu Sinha from 3M. There will also be a draw of 3 members to win a scholarship for the early bird registration (\$550) to the world forum in Brisbane in October, conditions are you must be a financial member and in attendance to win the scholarship.

Also nominations are open for committee positions and committee members please return the nomination form by COB 8th of June 2016.

The World Conference will be on this year in Brisbane Cynthia Shaw, (Federal Secretary) Lynne Noring (Federal President) & the Federal Committee will be extremely busy with this World event. This is a positive step for Sterilisation in Australia & I do urge all to attend.

On behalf of SRACA NSW committee I like to welcome David Bellamy to the team. David is the CSSD Manager at St George Public Hospital.

I would also like to congratulate Susan Meldrum who won the Sam Passfield award & the \$100 prize for the most outstanding OTEN Sterilisation Student. Susan is employed on a Casual basis at Lismore Base Hospital.

Please also check out the website www.sracansw.org.au for information, downloads and copies of the journal. Us, as the committee would like to know what our members would like to see, know or add to the site from within the industry that would benefit our members. So please contact us with ideas.

Just a little reminder that memberships are due for 2016

Regards

George Papadopoulos

President NSW SRACA

David Bellamy - Committee Member

David Bellamy

Q & A

Q Your role within the industry.

A I am CSSD manager at St George Public Hospital which is a part of the South Eastern Sydney Local Health District.

Q Biggest changes you have seen in the world of Sterilising?

A The release of AS4187:2014

Q The one special thing that you are passionate about in the industry?

A I have two passions in the industry;

- I would love to see sterilising departments public and private across the state networking and coming together. The industry has a common goal so opening the lines of communication and sharing concerns and ideas would make it easier, safer and overall better for all people involved and most importantly patients.

- Electronic traceability- I have been lucky enough to have the opportunity to implement two different tracking systems and working closely with the vendors thinking outside the box to make them work for the organisation. Seeing accountability and responsibility by all involved in the process set at an amazing level is extremely satisfying.

Q What do you see being the biggest challenges in the future?

A The complexity of instruments that are being manufactured that cannot come apart for cleaning and sterilization, and the fact governing bodies do not seem to do much when they are notified about these difficult to reprocess instruments.

Q Best aspect of your job?

A The best aspect so far in my role has been, seeing changes implemented within the department benefit my staffs, patients, customers and the organisation.

Q Who or what would you want with you if were stranded on a deserted island?

A It would be a hard decision between my daughter and Xbox. Both bring me joy but one can be demanding.

Q Favorite song of all time?

A Anything with a good beat! My staffs complain from time to time about my taste and how loud I can have the music.

Q Hobbies outside of sterilizing?

A Travelling - I have been to some amazing places over the last few years.

Ruth Strickland-Ross - Committee Member

Ruth Strickland-Ross

Q & A

Q Your role within the industry.

A CSSD Manager, Richmond Network Surgical Services.
Based at Lismore Base Hospital, Northern NSW.

Q Biggest changes you have seen in the world of Sterilising?

A Sterilizer Validations – When I started we would fill up the water chamber, wind the heavy door shut and turn the “autoclave” on. No printouts, no IQ. OQ or PQ.

Q The one special thing that you are passionate about in the industry?

A One special passion has always been “The patient”.

Q What do you see being the biggest challenges in the future?

A Keeping abreast with new innovative surgery procedures which in turn require more complex and difficult instrumentation to reprocess .

Q Best aspect of your job?

A Flexibility to live and work almost anywhere in Australia, and currently loving the beautiful Northern Rivers of NSW.

Q Who or what would you want with you if were stranded on a deserted island?

A My family, my music and lots of “bubbles”.

Q Favourite song of all time?

A “Nothing Compares To You” by Sinead O’Connor (written by “Prince”).

Q Hobbies outside of sterilizing?

A Reading, watching English comedies and partying with friends and family.

Education

On 29/04/16 SRACA NSW Committee had the pleasure to attend The Official Opening of the New Health and Student Services Centre, at TAFE Western Sydney Institute Building U Nepean College Kingswood Campus.

It was officially opened by the Hon. John Barilaro MP, Minister of Regional Development, Minister for Skills and Minister for Business.

This Purpose built health and student services facility showcases the latest in education technology, represents a significant investment by NSW Government and forms part of the Penrith health and education precinct.

This centre was designed to ensure it was environmentally friendly using natural lighting, cooling and heating.

The centre offers students practical experience in Sterilising, Dentistry, Optical dispensing, Nursing and Audiometry.

We had the opportunity to have a tour of all the simulation facilities, it is absolutely amazing.

The hospital ward is a fully operational and could open its doors as a hospital in the event of disaster.

There are Sims gender unassigned mannequins, already seeking treatment in the wards, where teachers remotely control the adult mannequins worth \$140,000 each, and their infant to simulate medical emergencies while observing student nurses responses behind one-way glass.

Sims Man breathes, vomits, has a pulse and can be put into cardiac arrest or have his limbs removed as this may occur in a car accident. Aged care student nurses can bath the Sims man in the training bathroom.

The simulated Sterilising department is fully operational and has segregated areas, such as a cleaning and disinfection room with a gus user station, and endoscopy equipment for processing flexible scopes. In addition, it has a tracking system, washer/disinfectors with parametric printouts and testing devices, 2 full size ultrasonic cleaners with lumen connections.

The items pass through to the inspect, prepare and packaging area. This area has a range of heat sensitive and surgical instruments and trays that students can pull apart put together and practice the insulation testing. Students can use the tracking system scanners and tray lists for completing trays. Several types of packing materials and sealing devices are available for students to use. Monitoring devices and testing devices are also available for students to practice with.

The sterilising area has functional pass through steam sterilisers and LTS, testing devices and monitoring devices are also available for students to practice with.

There is a cooling area including sterile storage and dispatch area. We had the opportunity to see one the Sterilising Services TAFE Teachers, showing a student how to sort, clean and use the equipment, and it was very well done.

Education ... continued

NSW SRACA has been invited to become part of the Industry Reference Group responsible for;

- making recommendations in the development of the training and assessment strategies
- assisting staff with industry and content specific advice and
- Reviewing and validating of assessments to ensure quality in training and assessment strategies.

It was a wonderful experience for our committee to be invited to attend the official opening of the centre, and network with the teachers and faculty.

The NSW SRACA AGM will be held at the institute on June 15th, 2016 commencing at 6pm. We have a guest speaker to provide some interesting education for the delegates. It will be well worth your while to attend.

Kind regards

Lynne Noring

NSW SRACA - Ballina Seminar 16/4/16

Beautiful Ballina By the Sea put on some glorious weather for our seminar on Sat April 16th. It was held at the RSL club, with sweeping views of the Richmond River.

Delegates attended from Hospitals from Coffs Harbour, Grafton, Casino, Tweed, Ballina and Lismore Base, including committee members and company reps from Sydney, Gold Coast and Brisbane.

A very fun, educational networking day was MC'd by Dave Harding.
Scholarship to WFHSS was won by Christine Taylor from Coffs Harbour Base Hospital.
A beautiful morning tea and lunch prepared by executive chef Blake Seymour, was part sponsored by Miele.

Ruth Strickland-Ross

Speakers

Jacque Dorante & Michele Wyland – Redcliffe Hospital – instructed us how to compile an E Poster for the upcoming WFHSS Brisbane 2016 conference.

Robin Burges – Device Technologies- gave a passionate talk about Biofilm and CRE, and the importance of focussing on pre-cleaning at point of use, to ensure that all possible contaminants are removed before processing of RMD's, and also the importance of following of IFU's.

Allan Gollings – Karl Storz – presented a very informative, interactive demonstration on care and maintenance of rigid scopes and associated equipment

Manu Sinha – 3 M – Creating Certainty, Creating Value – delivered an interesting session reminding us that we are all customers and not to assume things are always as you first perceive.

Julian Harden – Dental Depot - Cleaning and Oiling dental handpieces – showed the difference between dental handpieces and oral surgical handpieces and displayed a machine that can clean and oil mechanically as opposed to manually.

Craig Knox – Lismore Base Hospital – Physio, Orthopaedic Care Co-ordinator – Local Infiltration Analgesia - talked about the amazing new method used for some patients at LBH to control pain & infection for joint replacement surgery, which overall results in a better patient experience

TERMINAL STERILIZATION

STERIS® SYSTEM 1™ Express delivers rapid low temperature sterilization at the site of patient care.

As the fastest liquid low temperature sterilizer on the market today, STERIS SYSTEM 1 Express maximises patient throughput - ensuring you stay on schedule.

Transport Critical Devices Aseptically with Confidence

- ✓ The SS1 Express Sterile Barrier System (SBS) prevents exposure to air-borne micro-organisms
- ✓ The SS1 Express SBS Complies with **ISO 11607-1** - Packaging for terminally sterilized medical devices
- ✓ Each SS1 Express Sterilizer meets all requirements of the newly released **AS/NZS 4187:2014 & ISO 14937:2009**
- ✓ Sterilize your **SEMI CRITICAL** devices as per **AS/NZS 4187:2014**

WFHSS • 2016

17th WORLD STERILIZATION CONGRESS

26-29 OCTOBER 2016 BRISBANE AUSTRALIA

Welcome to Australia, or should I say 'G 'Day. '

For the first time ever the world of Sterilization will travel to the land down under, because in 2016 Brisbane, Australia will host the annual Congress of the World Federation for Hospital Sterilization Sciences (WFHSS). The Federation of Sterilizing Research & Advisory Councils of Australia (FSRACA) wish to warmly and formally invite you to participate in the WFHSS 17th World Sterilization Congress in Brisbane, Australia from 26th to 29th October 2016.

The focus of this event is to ensure that prominent professionals and Trade partners from all continents have the opportunity to exchange their knowledge and expertise globally. This is a wonderful occasion to share knowledge and technology that leads to evidence-based best practice, standardization and innovation of key concepts. To exchange ideas and discuss issues and standards that affect our profession. In addition, we all have a common goal: the reprocessing of Reusable Medical Devices (RMD) is performed efficiently and with patient safety as our priority.

It is beneficial to network and learn from people just like yourself from around the world. You will find that wherever you are in the universe we all have similar issues, and you will learn strategies to those issues by attending and participating at the Congress in Brisbane, Australia in 2016.

Brisbane has been selected because of its spectacular location, weather, and friendly, warm culture. It is not far from the beautiful Gold Coast beaches, wildlife and theme parks, and the Great Barrier Reef. Just one hour by air travel to Sydney and Melbourne, and little further to Western Australia, South Australia, Northern Territory and Tasmania. Enjoy alfresco gourmet international cuisine or just cruising the Brisbane River. Whatever you like to enjoy you will find it in Brisbane, Australia.

FSRACA is excited and is looking forward to welcoming you at the WFHSS Congress in Brisbane 2016.

So please take this opportunity to see and experience our beautiful country.

Lynne Noring
President FSRACA and Committee members

SRACA NSW AGM MEETING AND PRESENTATION

DATE : 15 JUNE 2016
TIME : 6.00PM
VENUE: HEALTH AND STUDENT SERVICE
CENTRE TAFE WSI KINGSWOOD
CAMPUS. BUILDING U,
2 O'CONNELL ST KINGSWOOD
NSW 2747
RSVP: 10th JUNE 2016
Cynthia.shaw@sswahs.nsw.gov.au
Tracey.Worthington@health.nsw.gov.au

Topic: What are we in the business of ? Creating Certainty Creating Value

Presented By: Manu Sinha— 3M

CSDs are often in the core of a facility yet they may not be viewed as a core part of the facility's key business – and that business is the safe treatment of patients. This presentation investigates and workshops the critically important role of the CSD and its people in the areas of:

- Patient safety
- SSI and HAI reductions
- Quality Management

The workshop also allows for participants to share ideas about how to raise the profile and further imbed into a facility, such as a hospital, with their non CSD peers.

It is an interactive workshop and that requires active participation.

This presentation will be follow by the 2016 Annual General Meeting.

After the AGM meeting we will be drawing 3 members names to win a scholarship to the 2016 World Forum to be held in Brisbane in October 2016. The scholarship will consist of an early bird registration to the World Forum only. Travel cost and accommodation will be the responsibility of the winning member.

You must be in attendance to win. You must also be a financial member.

Part-Time Casual Teacher

Part-time Casual Teacher of Sterilisation

Location: Nepean College

Reference No: 00004FSH

Salary: \$76.84 per hour (teaching duties)

Applications are invited from suitably qualified and experienced persons who wish to be considered for placement on a suitability list as Part-time Casual Teacher of Sterilisation, with TAFE NSW - Western Sydney Institute.

Notes: This is a child-related position. Applicants must have a valid and current Working with Children Check (WWCC) Clearance as a condition of employment. To apply for a WWCC Clearance, visit the Children Guardian's website at <http://www.kids.nsw.gov.au/>

Duties

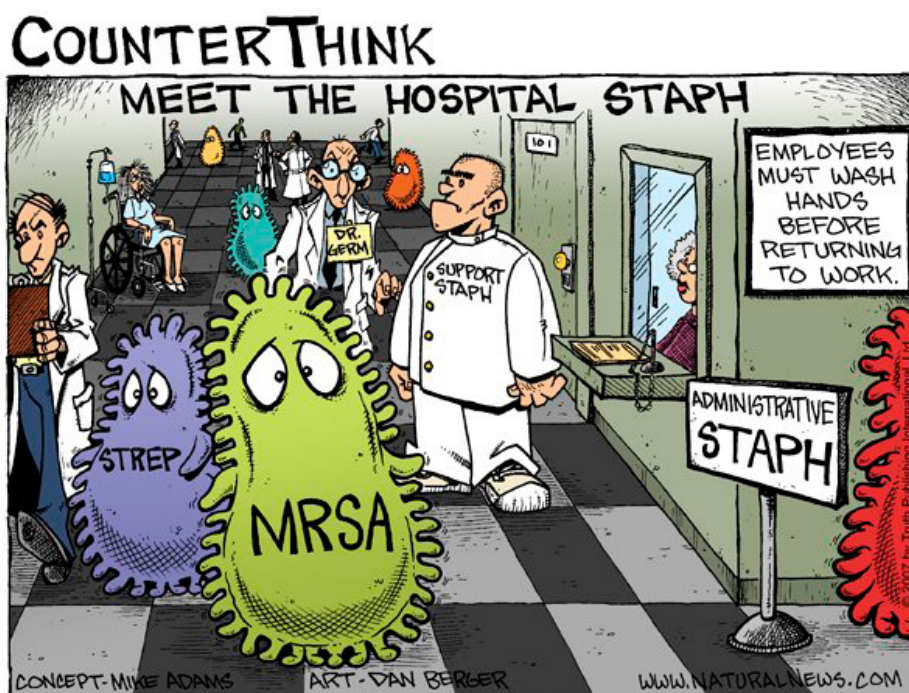

As listed in the Statement of Duties for Part-time Casual Teachers available in the Information Package for Job Applicants.

Selection Criteria:

- As a minimum teaching qualification Teacher must hold the Certificate IV in Training and Assessment (TAE40110).
- Certificate III in Sterilising Services or Sterilising Technology that is acceptable for membership of the Sterilising Research Advisory Council of Australia OR Qualifications and experience assessed through an approved process of RPL/RCC as relevant and equivalent.
- A minimum of three (3) years current and relevant experience (gained no longer than 5 years previously) in Sterilisation Services as a supervisor, lead hand, or educator in a hospital sterilising services department.

Other selection criteria also apply. The full selection criteria and further information about this role are available from www.jobs.nsw.gov.au (applicants must apply online via this website).

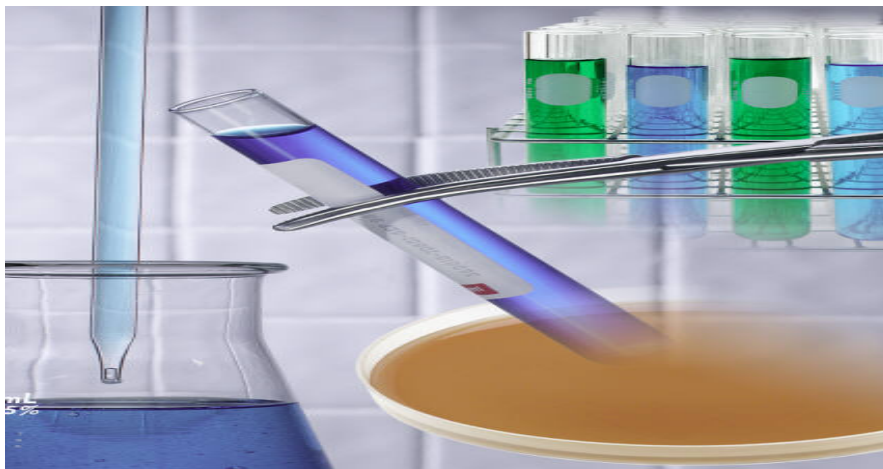

Closing Date: Tuesday 14 June 2016

Applying for a Research Grant

**Sterilizing Research Advisory
Council of Australia**

Expression of interest for The Sterilizing Industry

Applying for a Research Grant

FEDERATION STERILIZING RESEARCH ADVISORY COUNCIL OF AUSTRALIA

INVITE ALL FINANCIAL MEMBERS OF SRACA to apply for a research grant of up to \$1400.00

This package includes;

- Information
- Guidelines
- Application form

You can request your package from your State Secretary, or download from your State or Federal website.

Applying for a Research Grant ... continued

Purpose

To provide financial assistance, to promote research and develop skills to ensure the sterilizing industry is contributing to quality patient care.

Value

Maximum \$1,400.00

1. Selection criteria

- Financial assistance will be considered for projects which would be relevant and beneficial to both the applicant and those involved in the field of sterilization.

2. Eligibility

- Highly developed written and oral skills
- State SRACA membership number and proof you are a current active member.
- Be a full member of a state SRACA and have been a member of a state SRACA for a minimum of two years immediately prior to submitting an application
- Be currently employed in the field of sterilization and have been employed in the field of sterilization for a minimum of two years immediately prior to submitting an application
- Has attended SRACA meetings and educational activities during the two years immediately prior to submitting an application.
- Be actively involved in his/her state SRACA. Active involvement is considered to include but is not limited to:-
Willingness to serve on SRACA committee or sub-committee
Promotion of SRACA activities
- Applicants shall submit information about any application for funding from an alternative source/s for the same purpose.
- Only one research grant will be awarded annually.

3. Application Guidelines

- Application forms are available from both FSRACA and SRACA State secretaries
- Applicants should submit a completed type written application form
- Comprehensive Curriculum Vitae, which show details of work and education qualifications.
- Full details of the project, including the objectives, the methodology of the research, the outcome and how the research can enhance sterilization and the estimated or actual budget.
- The proposed project must have commenced within 12 months from receipt of the research grant.
- Within four weeks of completing the research project the recipient will need to submit a type written report outlining the project
- The recipient of a FSRACA grant shall:
Be prepared to speak on the funded project at FSRACA and /or SRACA meetings, conferences or workshops

Applying for a Research Grant ... continued

- The report may be published in the “Sterilization in Australia” Journal or in an appropriate national professional Journal at the discretion of the editor.
- The recipient will submit progress reports to FSRACA if requested to do so.
- Papers and reports shall not be returned to the grant recipient by FSRACA committee.
- Projects involving human bioethics shall show proof of permission by the people and/or organization/s concerned.
- The grant may fund all or part of the project
- The grant will be available only once to any individual.

4. Selection

- Completed application forms together with all supporting documentation shall be submitted to the Secretary of the state SRACA of which the applicant is a member, by 31 December each year.
- The state SRACA committee will determine whether eligibility requirements (as set out in this document) have been met.
- All applications will be forwarded by SRACA to the FSRACA Secretary together with a State committee recommendation.
- The applications shall be assessed at a meeting of the FSRACA committee.
- The decision of FSRACA committee shall be final and binding on all matters.
- Confidentiality of the selection process shall be upheld by all those involved.
- The names of successful applicants, together with an outline of project and funds granted, will be published in the minutes of FSRACA meeting.

5. Publication

- Grant recipients shall retain copyright of all papers/reports submitted to FSRACA

6. Financial Considerations

- Applicant shall submit a statement of proposed expenditure for the proposed project.
- FSRACA committee reserves the right to cancel the grant and request return of any monies granted should the recipient fail to pursue the purpose for which the grant was awarded.

7. Alternative Funding

- FSRACA financial grants are conditioned upon the applicant informing FSRACA at any time should funding received exceed the total cost of the project.
- FSRACA committee reserves the right to request the return of monies over and above full funding.
